MUSIC AND DRAMA

MINSTRELS MONDAY.

The George's Opera House Minstrel company will be the attraction at the Crawford Grand. This company is among the largest organizations traveling, every feature is different from the traditional acts of the average minstrel company and their lengthy, attractive program is refreshingly up to date in every respect.

The first part includes the best things in pretty ballads, witty repartee, and a fund of other features not generally found in a minstrel first part. A supplemental introduction cleverly juggling acts, knock-about sketches, gaudy acts, monologue merriment, and a host of other good novelties.

This company is composed solely of colored men and women, and is probably the best company of its kind on the road.

Another fair house witnessed last night's performance of the world famous Heres Co. Notwithstanding the bad weather their performance was, if anything, better than the other two evenings. The singing and dancing was all bringing round after round of applause. Tonight is the last night of the show, when the company produces the "Black and White Twins" and "Ark of Bones."

The company is composed of a good double bill in which you will see

NEWS FROM KIOWA

Does Nothing But Rain and Keep Raining.

The mail train on the Santa Fe was about four hours late Sunday caused by a washout near Mayfield. This was a great shock to people who depend on Kansas City papers for their war news. The Eagle was the first paper to reach us Monday with the Spanish account of the battle at Manila, later in the day we heard our side of the battle and everything was very jubilant and at night celebrated with drum and fire.

The late rains have caused Medicine river to have some two feet of water in it, making it possible for Spain's fleet to sail up the river and shell the town, confining for about two hours Monday night. Their field pieces consist of two 24s, but they make noise enough to repel any invasion of the Spaniards.

Alva's quota of soldiers passed through here Monday on their way to Guthrie. The number was not very large, but still there were two more than has gone from Kiowa at this writing, but as Kiowa is near Medicine river you will please excuse us as we are not able to join the army and protect our own homes.

W. E. Cook returned home yesterday from a short visit to St. Louis.

J. W. Metz left Sunday on a business trip to Kansas City.

Rain began falling here Saturday evening and it did nothing but rain until Sunday evening, being the heaviest rain fall for this country for several years.

Tuesday a hard rain commenced about 7 a. m. and is still falling at noon.

GREAT KENTUCKY DERBY

Plaudit Beats Lieber Karl Because He is a Better Horse.

Louisville, Ky., May 4.—Lieber Karl met his master today. He lowered his colors to a grander, a better horse, for Plaudit, like the aristocrat of the turf that he is, won the classic event by nobly responding to a call for speed, in a race that will long be remembered by the 15,000 people who saw it. Derby day dawned dark and gloomy and by 10 o'clock the rain came, and continued at intervals until 2 o'clock. The sandy soil of the track absorbed it, however, and the going was not over a second and a half slow when the bell sounded.

Plaudit, Lieber Karl, Han D'O'r and Isabe came from the paddock in the order named and the appearance of each was the signal for applause. They were sent away in first break with Lieber Karl in front, Isabe second, Plaudit third, and Han D'O'r last. Burns went out to make the pace and he had command by half a length as they raced down to the stand, with Han D'O'r second, Isabe third and Plaudit last, with two lengths covering the bunch. These positions were maintained as they went around the lower turn, and when they were straightened out in the back stretch Isabe was in the lead, followed by Plaudit, then Lieber Karl and Han D'O'r.

They were on even terms at the eighth pole, and then amid the lusty shouts of the thousands that packed the stands, the son of Himyar thundered down the track and to the wire, the winner of the twenty-fourth Kentucky Derby. Lieber Karl was not neglected and he finished second because he had not his superior, Isabe was third, a half length away, and Han D'O'r last by two lengths. Summary:

Kentucky Derby, mile and a quarter, 2-year-olds, stake \$5,000. Plaudit (Simmis), 3 to 1; Lieber Karl, 12 to 1; Burns, 20 to 1; Isabe, 117 (Knapp), 25 to 1; Han D'O'r, 117 (Conley), 15 to 1; fourth, Time 2:04 1/2, 2:05 1/2, 2:06 1/2.

NOT BLOWN UP BY SPIES

Santa Cruz, Cal., May 4.—There is no evidence to indicate that the recent explosion in the powder mills here was caused by Spanish spies. The output is now 5,000 pounds of smokeless and 1,000 pounds of brown powder daily. The only delay caused by the disaster will be in the manufacture of infantry smokeless, but there is enough of this now on hand to supply 60,000 men for three months.

DOLE OFFERS HAWAII

To the United States Government For War Purposes.

WILL BE GLAD TO SUPPLY Anything He Has in the Way of War Munitions.

Honolulu, April 27, via San Francisco, May 4.—President Dole has sent a long bulletin to President McKinley, offering to transfer the Hawaiian Islands to the United States for the purpose of its war with Spain and to furnish the American ships of war in American waters with large quantities of coal, supplies and ammunition. This action was taken by the executive after a secret conference of the Hawaiian cabinet, called to discuss the position to be assumed by the government toward the belligerents.

The news of the declaration of war by the United States against Spain was received here by the Mariposa, which arrived from the Hawaiian Islands with advice from the United States to the 30th instant.

Washington, May 4.—Senator Frye, speaking of the report from Honolulu, said that he hoped the president would accept the offer by President Dole.

Members of the senate committee on foreign relations general interpret the report from Honolulu regarding President Dole's tender to the United States, to indicate a willingness to form an alliance with this country for the war with Spain. They say that for the Hawaiian Islands to have been aloof and insisted upon remaining neutral would have been equivalent to refusing coal or granting any facilities to the United States during the war and that the action taken will put the islands in the way of doing this country any favor possible.

NOT OFFICIALLY CONFIRMED.

Washington, May 4.—No official news has come to confirm the report from Hawaii that the islands have been tendered to the United States for war uses. It is said that if the incoming mail brought the proposition to San Francisco it would scarcely be trusted to the telegraph there on account of its importance, but would be forwarded by the railway mail, which would bring it here in about five days.

Without exception the naval officers would welcome the possession of Hawaii just at this moment, as affording a magnificent base for naval operations in the Pacific, but it is said, President Dole's proposition must be submitted to congress, so that it will be for the legislative branch in the end to pass upon this offer.

RESOLUTION TO ANNEX.

Washington, May 4.—Representative Newland of Nevada has introduced a joint resolution for the annexation of Hawaii. It provides for the confirmation of the cession by the Hawaiian republic of all rights to sovereignty over the islands and their dependencies and of cession and transfer to the United States all public property and all its rights and appurtenances, assuming the Hawaiian public debt to not exceed \$4,000,000; prohibits further immigration of Chinese and appoints five commissioners at least two of whom shall be residents of Hawaii, to recommend necessary legislation.

The resolution declares the islands and their dependencies "thenceforth annexed as a part of the territory of the United States and subject to the sovereign dominion thereof."

Special laws are to be enacted by congress for the enactment and disposition of public lands, and all revenues or proceeds therefrom, except lands used or occupied for civil, military or naval purposes of the United States, or local government use, are to be used solely for the benefit of Hawaiian inhabitants for educational purposes. Pending congressional provision for the government of the islands, the present government officers of Hawaii are to continue under the direction of the president of the United States, subject to removal by him.

Existing Hawaiian treaties with other countries are to immediately cease, being replaced by those between the United States and other nations. Municipal legislation of the island, unless enacted for the fulfillment of the treaties extinguished or contrary to our constitution, remain in force until otherwise determined. Pending legislation extending our customs laws, the existing customs relations of the islands remain unchanged.

The assumption of public debt lawfully existing at the date of the exchange of the passage of the resolution includes amounts due to depositors in the Hawaiian postal savings bank, the Hawaiian government, however, concluding to pay the interest of the debt while the existing government and its commercial relations are continued. The Chinese exclusion paragraph prohibits the admission of Chinese into the United States from Hawaii. To carry out this provision \$100,000 is appropriated.

WHITE PAPER WILL GO UP

New York, May 4.—The Tribune says: "Unless the war is brought to a quick termination or Spain removes the embargo that she has placed on sulphur as a contraband of war, the manufacturers in this country will probably be soon obliged to considerably raise the price of the cheaper kinds of paper. Brimstone is used in large quantities in the manufacture of the paper used for newspapers and magazines, and a rise in the price of sulphur would have the effect of raising the cost of production of newspapers to a very appreciable extent."

The amount of brimstone in this country at present is extremely small, and there seems at present no indication that the stock can be increased.

SALISBURY WANTS PEACE

London, May 4.—The Marquis of Salisbury, addressing the annual demonstration of the Primrose League, the great conservative political organization, at Albert Hall this afternoon, referred to the "lamentable conflict proceeding between

two powers, both friends of Great Britain" and expressed the hope that the "experience of the war and the recognition of the blessings of peace will be long bringing to the minds of both combatants sentiments which will restore tranquility to the world." (Cheers).

IS FARRAGUT'S PEER

London, May 4.—Vice Admiral Philip Howard Colomb, retired, the inventor of improved systems for signalling at sea and the author of a number of naval works, in an interview on the subject, of the splendid victory of the United States fleet at Manila is quoted as saying:

"I doubt if there ever was such an extraordinary illustration of the influence of sea power. A superior fleet has attacked and beaten a Spanish fleet supported by batteries, and it now appears, it passed those batteries and has taken up an unassailable position at Manila. The boldness of the American commander is beyond question. Henceforth he must be placed in the Valhalla of great naval commanders. Nothing can detract from the dash and vigor of the American exploit or dim the glory which Dewey has shed upon the American navy. It may be hard for the world, for assuredly the American navy will never accept a subordinate place after this exhibition of what it can do."

REJOICING IN MEXICO

City of Mexico, May 4.—There has been great excitement here over the American victory, and its moral effect will be great, for the Spanish naval papers and other journals under the Spanish influence have confidently anticipated triumph for Spain in the first encounter on the ocean. Resident Europeans who have been predicting the defeat of the American fleet are now changing their tone. There is intense commercial jealousy of Americans and this hostile sentiment is displayed in the papers here. The Spaniards are predicting an unexpected blow by their cruisers at some point on the Atlantic coast.

DEWEY DAY IN NEW YORK

New York, May 4.—This was Dewey day and Charter day. The municipal celebration of the formation of Greater New York was overshadowed by the events of world-wide import during the past few weeks, culminating in the victory won by Commodore George Dewey over the Spanish fleet in the harbor of Manila.
